REISSUE APPLICATION DECLARATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

As below named inventors, we hereby declare that:

Our residence, mailing address and citizenship are stated below next to our names. We believe we are the original, first and joint inventors of the subject matter which is described and claimed in patent number 6,559,637, granted May 6, 2003, and for which a reissue patent is sought on the invention entitled:

**NON-CONTACT ROTATIONAL POSITION SENSOR AND
THROTTLE VALVE ASSEMBLY INCLUDING NON-CONTACT
ROTATIONAL POSITION SENSOR**

the specification of which is attached hereto.

We have reviewed and understand the contents of the above identified specification, including the claims.

We acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

We verily believe the original patent to be wholly or partly inoperative or invalid, by reason of the patentees claiming less than they had the right to claim in the patent. For example, the original claims did not set forth a non-contact rotational position sensor comprising a rotating axis, an annular or semi-annular magnet, magnetic substance assemblies, a pair of small air gaps and a magnetic sensitive device as defined in new Claim 21, or the combination of a permanent magnet, a magnetic path member, a magnetic sensitive device and a slit as defined in new Claim 25.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicants. As named inventors, we hereby appoint the following attorneys and/or agents to prosecute this application and transact all business in the United States and Trademark Office connected therewith:

Herbert I. Cantor, Reg. No. 24,392; James F. McKeown,
Reg. No. 25,406; Donald D. Evenson, Reg. No. 26,160;
Joseph D. Evans, Reg. No. 26,269; Gary R. Edwards, Reg.
No. 31,824; and Jeffrey D. Sanok, Reg. No. 32,169.

Please direct all communications to:

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that

willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any reissue patent issuing thereon, or any patent to which this declaration is directed.
